Schlumberger

Accelerating AI adoption for the energy industry

Accelerate your digital workflows by working with Schlumberger specialists in domain science, data, and AI through the INNOVATION FACTORI network. Digital technology and expertise is on hand to drive the rapid development of your ideas and concepts into the perfect solution to your challenges—fully deployed at scale.

Create digital solutions for your specific needs:

- Overcome your workflow challenges
- Deployment on cloud, edge, or on-prem
- OSDU™ Data Platform compatible
- Increase teamwork and productivity
- Extract long-term value from data and AI

INNOVATE AT SCALE.

Start small or go global

❯ Innovation Workshops

Bespoke solutions deployed in one to two weeks.

- Collaborative team workshops
- Experience next-gen AI, ML, cloud, and IIoT solutions for energy
- Build digitally enhanced concepts to demonstrate value

❝
… intense and very well executed…

Data Professional – European IOC

❯ Innovation Projects

Build lasting solutions for your business

- Rapidly build and develop customized deployment-ready solutions
